# Parent-Child Workshop Build a Tree House

suitable for 7yo to 12yo children to join with their parents

## OVERVIEW

Embark on a creative journey with your child to design and construct a TreeHouse together. Using a natural tree branch as inspiration, participants will delve into the world of model making, considering elements such as form, features, levels, platforms, and openings to create their dream TreeHouse.

## LEARNING OUTCOME

Guided by skilled instructors, parents and children will begin by sketching their TreeHouse designs, then learn how to transform these 2D drawings into intricate 3D prototypes.

Through hands-on activities, participants will develop fundamental model making skills, mastering techniques such as measuring, cutting, and assembling to bring their vision to life.

Along the way, they will discover the importance of reinforcing structures to ensure safety and stability.

## COURSE CONTENT

Discover the wonders of TreeHouses from around the globe as you and your child explore various designs and concepts. Gain insights into the design process and gather inspiration to fuel your own unique TreeHouse creation.

# Parent-Child Workshop Generative AI

suitable for 9yo to 12yo children to join with their parents

## UNVEILING THE WONDERS OF AI

The workshop aims to teach children about generative AI in a fun and engaging way, demystifying the concepts and providing hands-on experience with AI tools. It seeks to foster curiosity, creativity and a positive attitude towards AI, empowering children with knowledge and understanding of this evolving technology.

## TOPIC TAUGHT

- Basics of the concept of AI and specifically Generative AI
- How to create good prompts (text, image, video, sound)
- Differences and capabilities of different models and technologies
- AI Ethics and the Future of AI
- Reliability of AI, glitches and mistakes
- Practical usage of AI, examples for everyday usage of AI

## CHOOSE THIS WORKSHOP IF

- You are interested in AI
- You are interested in learning basic computer science
- You want to learn such concepts in a fun, easy and tangible way

**Session 1**  
**8 June 2024**  
**Saturday**  
**9am - 12pm**

**Session 2**  
**9 June 2024**  
**Sunday**  
**2pm - 5pm**

## Location

**Agora Colearning**  
**HarbourFront Centre**  
**1 Maritime Square Level 4**  
**(via Lobby C)**

Organised by:

**\$450**  
/person

Your children may bring their own laptops for this course.  
Once you enrol your child in the holiday camp, our customer care will connect with you to let you know if your child needs a laptop.

## YouTube Studio

### Creating Online Videos

suitable for 9yo to 12yo children

#### LAUNCH YOUR OWN CHANNEL AND CREATE AWESOME CONTENT!

Podcasts, gameplay, unboxing, tutorials...

Do you know what's the latest big hit on different online platforms?

At Logiscool's newest camp, you will learn the basics of video and audio editing, and we will show you the coolest online genres to try out instantly! Beyond that, we will talk about trolling on the internet, internet security, the legal background to vlogging and analyse good and bad examples.

We will also find out what makes for an awesome YouTube channel!

#### CHOOSE THIS HOLIDAY CAMP IF

- You are interested in making and editing videos and want to produce cool content
- You are wondering what makes a YouTube channel successful
